BOXING CONTEST THURSDAY LAST

Slam, bang, thud! These sounds so familiar to those who attended the boxing show Thursday evening last, caused by the mitt slingers of Didsbury and district.

It was a real success. Over 175 persons attended to watch the 16 contestants show their boxing ability. One contestant claimed he couldn't breathe in his last bout owing to the cigarette smoke emanating from the spectators.

Messrs. Wordie and Studer acted as judges, Kercher as timekeeper and H. Roberts as referee. Good prizes were given the winning contestants and the balance of the proceeds will be used for gymnasium equipment.

The following were the contestants, the first named in each bout being winner:

J. Gabel, T. Fookes; T. Pearson, B. Roper; H. Carlton, B. Fookes; F. Carlton, M. Perrin; K. Stauffer; H. Carlton; E. McMow, G. Gabel; E. McMow, J. Fookes.

Gene Axtell and D. Wilson had a fast two-round bout, no decision and Geo. Geiger and Glen Fulkerth boxed three rounds, no decision.

There will be another contest in March.

Dr. Jas. P. Warbasse, president of the Co-operative League of the United States, a member of the central committee of the International Co-operative Alliance and author of "Co-operative Democracy" a standard work on the philosophy and practice of co-operation the world over, will address a meeting at the Olds School of Agriculture, Friday, Feb. 22nd. It is expected that the address that is to be given at the University, Edmonton, Thursday, Feb. 21st (today), will be broadcast from radio station CKUA.

Dumb Dora says, now that heavy tractors are so popular on the farms, they can raise mashed turnips.

Innisfail Entrant Wins In District Oratorical Contest Friday Last

Telephone Department Plans Big Extensions

Expansion of the plant, equipment and activities of the Alberta Government Telephones will involve an expenditure of approximately \$1,000,000 before 1933, it is announced by Hon. V. W. Smith, Minister of Railways and Telephones. Included in the proposed improvements is a new exchange building in Calgary and the construction of new buildings at Hanna, Hallmark, Grand Prairie and St. Paul de Metis and possibly one other point in the province. A new building is also planned at Drumheller with a complete automatic exchange and it is expected that automatic equipment will be also installed in the Red Deer building.

comparatively new, especially since the Great War. Her part there is known. She entered that conflict of her own accord because certain principles of international law were violated. She now possesses a place in the League of Nations, and as such, her envoys have added their signatures to various important treaties that concern the welfare of the world. Concluding, the speaker stated that high ideals, noble aspirations, and the fruits of pure religious instruction are in the main factors that command international respect.

The judges of the contest were Messrs. W. A. Austin, Inspector R. H. Liggett, and Dr. J. L. Clark. Rev. A. E. Hayes acted as chairman.

A short musical program was presented. Those taking part including: Miss I. M. Sangstad, vocal solo; Mrs. C. Adshead, violin solo; H. O. Tonjum, vocal solo, all accompanied by Mrs. J. Boorman.

WEDDINGS

McCulloch—Richardson

The home of Mr. and Mrs. Harry Richardson was the scene of a very pretty wedding on Thursday, February 14th at 1:30 o'clock when their daughter, Mary Katherine, and James Carson McCulloch, eldest son of Mr. and Mrs. Wm. McCulloch, were united in marriage by Rev. A. E. Hayes of Knox United Church. The bride was gown-d in maize satin and entered the parlor on the arm of her father who gave her away. Miss Mary McCulloch and Miss Alice Richardson were the bridesmaids while Mr. Bert Richardson was best man. After a sumptuous wedding dinner served to about 30 relatives who witnessed the ceremony, the young couple left by motor for Didsbury where they took the evening train for Kelowna and Vancouver Island where the honeymoon will be spent. The bride travelled in a smart tweed dress and marvella coat. The popularity of the young couple was attested by the valuable gifts they received also by the 40 or 50 young couples who gathered to see them off on their trip. We extend our congratulations and best wishes and hope they may live and prosper for many years to come in our district. —Rosebud Item.

Card of Thanks

For the kind help and sympathy extended to us during the recent illness and death of a beloved wife and mother we wish to express our appreciation and gratitude.

Among other beautiful floral gifts was a spray from the Didsbury W.C.T.U. of which she was a member for many years. We thank our friends for these gifts of sympathy.

Clarence Carver, Chauncey and Ellis.

OBITUARY

Mary Secor Carver was born in Red Wing, Minnesota, Nov. 19th 1866, and died at her home near Didsbury, on Feb. 10, 1929, at the age of 62 years, 2 months and 21 days.

In the year of 1890 she was united in marriage to Clarence Dudley Carver to which union were born two sons, Chauncey Hobart of California and Cyril Ellis of Didsbury both of whom remain with their father to mourn the loss of as good a wife and mother as ever blessed a home with the graciousness of her presence. Besides the father and sons the departed leaves many friends and relatives who will keenly feel their loss.

Mary Carver has for many years been a devoted follower of the Lord Jesus Christ having been converted in a revival meeting held near her home in Minnesota. She became a member of the Congregational Church at that time, later transferring her membership to the Methodist Church. At her death she was member of the Nazarene Church of Calgary. When the hour of departure arrived she was all ready to go and fell asleep in Jesus quietly and beautifully.

The funeral was held in M.B.C. Church, Rev. Roy Smee of Calgary officiating, assisted by Rev. C. J. Hallman. Interment was made in the Didsbury cemetery.

The West and Its Natural Resources

The question of the transfer of the public lands and natural resources in the West by the Dominion to the three prairie provinces is once again very much to the fore. Ever since the provinces of Alberta and Saskatchewan were formed; in fact, to some extent ever since Manitoba was created a province, there has been a demand on the part of the Western Provinces that they should be placed in a position of equality with the older provinces in the matter of ownership and control of the public domain.

Fortunately, the question has now passed out of the realm of partisan controversy, because all political parties, Liberal, Conservative, Progressive, at Ottawa as well as in the Prairie Capitals, are agreed that the transfer should be made. Not only so, but the Governments of the Eastern Provinces have waived the objections so long urged by them. It is now only a question of reaching terms acceptable to the West on the one hand, and the rest of the Dominion on the other hand.

Negotiations are now under way with all three prairie provinces. In the case of Manitoba, agreement has been reached with the Dominion to the extent that a Commission is now engaged in studying the whole question of terms. Negotiations with Alberta reached the point of an agreement being actually signed between the two Governments, but later, Ottawa proposed to insert a provision relative to the school lands which was unacceptable to Alberta, and the agreement was not proceeded with. Ottawa has since modified its position and an early settlement of outstanding differences seems likely.

Saskatchewan's position is somewhat different from that of the other provinces. Whereas Alberta is rich in coal, oil, and other resources apart from lands, and recent discoveries have revealed a Flin Flon and a Sheri-ri-Gordon in Manitoba, Saskatchewan's mineral wealth is yet to be proven. Furthermore, Saskatchewan's chief wealth has been found in its agricultural lands, and to a large extent these have already been disposed of by the Dominion, with the result that there is not as great wealth to be handed over by the Dominion to Saskatchewan as exists in the case of the other two provinces. Saskatchewan, therefore, has a stronger claim for compensation for lands alienated under Dominion administration for the general benefit of all Canada. However, negotiations are in progress.

The sooner all these questions are finally settled and the Western Provinces placed in control of their lands and resources the better. There cannot be complete unity among the provinces, nor full development of a national spirit and aims, so long as Western Canada feels it is forced into a position of inferiority to the Eastern Provinces. The interests of the Dominion demand the removal of any cause for such feeling. Further, whatever arguments may have been convincing in 1905 for retention of the public domain by the Dominion on the ground that they could administer them better than could the newly created provinces with all the manifold tasks before them, and with but small populations and financial resources, those arguments are removed now that there are over two million people in the three prairie provinces with fully developed governmental institutions and strong financial credit.

Constitutional issues, it is true, are involved in any consideration of this matter. The West does not, and cannot, accept the interpretation placed upon certain enactments by the Dominion and the Eastern provinces, notwithstanding that Eastern opinion is greatly modified to what it was a few years ago. It would, however, be a mistake for the negotiating parties to take up positions based solely upon constitutional grounds. To do so would mean long and expensive litigation right through to the Privy Council, in England. Then, when the legal and constitutional issues were finally settled, an army of expert accountants would have to be engaged for years to delve into all the many transactions involving lands and resources since the passage of the first Dominion Lands Act, in 1872.

The sane, sensible, business-like thing to do now is for the representatives of the Dominion and the Provinces to gather around a table and reach an amicable agreement, fair, reasonable and acceptable to all. The sooner this big issue is settled the better for Canadian national unity and strength, and the quicker will the resources themselves be developed for use of the people and add to the growth, development and wealth of our Canada. So long as they remain in the present unsettled state neither Dominion nor Provincial Governments can proceed with proper and energetic developmental policies, and, as a result, progress is retarded.

First Bird—Don't you know better than to sit on this chimney? You're getting all dirty.

Second Bird—Soots me all right.

Thunder does not sour milk, but the same condition of the atmosphere which causes thunder does sour milk.

Simple Precautions Against FLU Sore Throat — — The Danger Signal

Health Authorities Point Out The Necessity Of Treating The Simple Cold At Its Beginning

Nearly every case of "Flu" starts with a simple cold. At first the throat is sore—often just a little hoarse—soon the infection goes lower—then the chest is affected. A safe plan is to gargle the throat three times daily with "Nerviline"—this will keep the throat free from germs. If there is any sign of tightness in the chest, rub on Nerviline—every drop will penetrate deeply—congestion will be relieved—the cold will break up quickly. Many a dangerous case of "Flu" can be avoided by this simple home treatment.

Of course it is always wise to take some relaxing medicine, and for this purpose immediate results will be secured from Dr. Hamilton's Pills—they purge the system of impurities and carry off a lot of disease—breeding wastes.

This combination treatment of Nerviline and Dr. Hamilton's Pills is very effective for Grippe, Influenza, Bad Colds, etc., and can be relied upon to give very satisfactory results.

The Airplane Ambulance

Actual Demonstration To Be Given In Paris Next May

The airplane which has already proved its worth as a passenger, mail, and express carrier, is now to become an ambulance.

An international congress will assemble in Paris next May to consider air transportation of sick and injured in both military and civil life, the Commerce Department has been advised by its representatives there.

Actual demonstration of the airplane ambulance will be given at Le Bourget Field, where a pseudopatient will be bundled aboard, carried to some provincial village and returned.

NERVOUS INDIGESTION AS A RESULT OF FLU

A Severe Sufferer Overcame This Trouble By Taking Dr. Williams' Pink Pills

No ailment of recent years has proved so treacherous as has the Flu. The disease itself is bad enough, but the after effects are where the real danger lies. The Flu leaves behind it a weakened body, impoverished blood, shattered nerves and an impaired digestive system. Too much stress cannot be laid on the importance of rebuilding the blood and strengthening the nerves during convalescence. Until the blood is built up there can be no recovery of health and strength. The one sure blood-builder is Dr. Williams' Pink Pills. Start a treatment of them today and see how soon you show signs of robust health again.

Among the many victims of the terrible Flu epidemic of 1919 was Mrs. Irving Maxwell, of Bancroft, Ont. Read what this lady has to say concerning what Dr. Williams' Pink Pills did for her:—"After an attack of the Flu I was left in an extremely weak state. My blood was impoverished; I was seized with indigestion and stomach trouble; my nerves were shattered and nothing my doctor gave me seemed to help me in the least. I continually grew weaker and weaker till finally I lost all control of my nervous system. My mother, who had used Dr. Williams' Pink Pills with good results for anaemia, strongly advised me to give them a trial. I did so, and after using three boxes I noticed some improvement. I persisted in the treatment and by the time I had used seven boxes I was fully restored to health again, and although I am a mother of six children I am now able to do all my work around the house and feel as well as ever I did in my life before. What these Pills have done for me they will surely do for others."

Dr. Williams' Pink Pills are a tonic, not a stimulant. They build up the blood and are a specific for such troubles as indigestion, rheumatism, women's ailments and the general worn-out feeling that affects so many people. They are sold by all medicine dealers or direct by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Non-Inflammable Paper

German Gives Successful Demonstration Of His Fireproof Invention

A paper that does not burn has been discovered. The German inventor, Mr. Franz Franck, gave a demonstration recently. He took a sheet of ordinary newspaper, crumpled it into a ball, and wrapped this highly combustible object in a sheet of his fireproof paper. Thus protected, he held it for a few minutes in the flame of a laboratory blast lamp hot enough to melt a glass window-pane. Not only did the fireproof wrapping survive, but the ordinary paper inside was not even scorched.

Breaks All Records

Breaking all records for long distance telephone communication. Prince Carl, brother of King Gustav, and his wife, the Princess Ingeborg, conversed from Stockholm, Sweden with the Crown Prince and Princess of Belgium, who were at Bandoeng, Java, Dutch East Indies. The distance traversed was 8,383 miles. The conversation was carried by wire to Amsterdam from Stockholm and thence by wireless to and from Java.

To Develop Home Art Industries

Canadian Handicrafts Guild To Hold Exhibition In Regina

The Canadian Handicrafts Guild, whose object is to encourage, revive and develop home art industries throughout Canada, will hold an exhibition in the Saskatchewan Hotel, Regina, March 20 to 23rd, 1929. The exhibit will be open to anyone free of entry fee or charge who is skilled in making bead work, basketry, embroidery, knitting, laces, leather work, metal work, pottery, quilts, rugs, sewing, weaving, wood work, etc. Everything, however, must be handmade.

The object of the Guild is to preserve the knowledge and skill possessed by our people and to encourage industry and thrift in the home of the public, making their work profitable and honourable by means of exhibiting the products of their skill and to keep records in order to prevent the extinction of any arts or crafts. The Guild will undertake to sell any exhibits that are sent in but every person should, of course, put his or her price on the article.

One feature of the exhibit will be to educate the public to the value of good handwork, so that a demand may be created for these handicrafts thereby enabling our people to find their interesting and artistic work at home remunerative.

This is the first exhibition that has been held in Saskatchewan but in other provinces successful exhibitions have been held in which the sales have gone as high as \$50,000.

Anyone interested in any way should communicate with the Secretary, Canadian Handicrafts Guild, Saskatchewan Hotel, Regina, and any information will be cheerfully furnished. The Guild is not a profit-making institution, (there are no entrance fees), but is out to help others help themselves. No time should be lost, therefore, in writing at once to the secretary for information.

The Folk Song and Folk Dance Festival at Regina, will be held at the same time and a most interesting four days is expected.

Use Minard's Lintment for the Flu.

A snake would starve to death rather than eat anything but living prey.

It is the cause and not the death that makes the martyr.

Will Introduce Flag Bill

Resolution Dealing With Canadian Symbol Will Be Considered

The adoption of a Canadian flag will come before parliament during the present session through a resolution placed on the order paper by C. R. McIntosh, Liberal member for North Battleford.

The resolution of Mr. McIntosh calls for the appointment of a special committee "for the purpose of considering the advisability of adopting a Canadian flag representing Canada as a whole which shall form part of the British flag as the symbol of the dominion as an equality partner in the commonwealth of British nations."

Short of Breath Smothering Feelings Choking Sensation

Mrs. H. Day, Dartmouth, N.S., writes:—"For over a year I was troubled with smothering spells and shortness of breath, and it was impossible for me to walk, even a short distance, because of the choking sensation which followed.

After trying many treatments, in vain, I at last decided to try

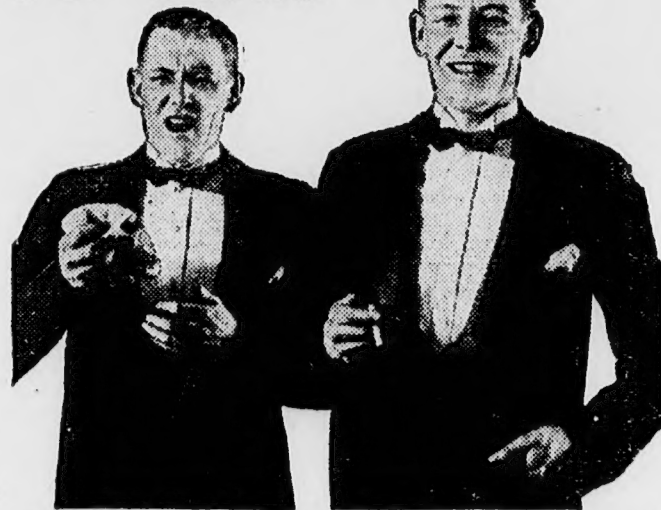

and in a surprisingly short time they did me much good.

Price 50c per box at all druggists or dealers, or mailed direct on receipt of price by The T. Milburn Co., Ltd., Toronto, Ont.

Of a sane man there is only one safe definition: he is a man who can have tragedy in his heart and comedy in his head.

Ask for nothing but what is right and submit to nothing that is wrong.

For Colds -

How many people you know who end their colds with Aspirin! And how often you've heard of its prompt relief of sore throat or tonsillitis. No wonder millions take it for colds, neuralgia, rheumatism; and the aches and pains that go with them. The wonder is that anyone still worries through a winter without these tablets! They relieve quickly, yet have no effect whatever on the heart. Friends have often told you Aspirin is marvelous; doctors have declared it harmless. Every druggist has it, with proven directions. Why not put it to the test?

Aspirin is a Trademark Registered in Canada

ASPIRIN

WILL MAKE BID FOR LARGE AREA IN FAR NORTH

Ottawa.—While cabinet ministers and western members of Parliament will not discuss, openly, the announcement that Premier J. G. Gardiner, of Saskatchewan, will seek a vast extension of the area of that province when he comes here to confer with the Dominion Government, there is the keenest interest in his proposition.

The reaction on the whole, is most unfavorable and no one appears ready even to consider the possibility of granting to Saskatchewan the territory immediately to the north of Manitoba.

This attitude of course is more marked among Manitoba members than others, but the general views of eastern members and ministers is that to grant Mr. Gardiner's request would precipitate a quarrel between the provinces which would have far-reaching results and might, conceivably, become an outstanding national issue.

Some members believe that no change in the present boundaries should be made until the northern areas are populated and that there should then be created new provinces to the north of the present prairie provinces. However, the majority of members agree that this ought not to be done, but that, when the time comes, the present provinces should be extended northward.

The motives behind Mr. Gardiner's demand are well appreciated here. The area to the north of Manitoba and Saskatchewan extending to the Arctic Ocean and bounded on the east by Hudson Bay and on the west by a line drawn from Coronation Gulf to the present western boundary of Saskatchewan is potentially one of the richest mineralized areas in Canada. About one-third of the famous pre-Cambrian shield lies in this northern territory, and active prospecting financed by two of the wealthiest mining corporations in Canada, is proceeding north of Chesterfield Inlet and along the Copper Mine River, running into the Arctic Sea. Within a few years tremendous mining development may take place in this northland.

Loyal To British Crown

New Delhi, India.—Forty of the native rulers met here and unanimously passed a resolution deprecating proposals for the complete independence of the country. The assembly, which was held in the chamber of princes, reiterated the loyalty to the British Crown of all its members.

May Require Aid Of British Parliament

To Smooth Out Difficulties In Connection With Manitoba Act

Ottawa.—The possible necessity of invoking the legislative machinery of the British Parliament to smooth out certain difficulties of certain lands in Manitoba, was raised by R. W. Craig, counsel for the province, at a session of the Manitoba natural resources hearing.

Mr. Craig, during the course of his argument, pointed out that the British Parliament had passed the Manitoba Act of 1870 and provision had been made whereby it could not be changed by the Dominion parliament.

It might be necessary, in order to change the present financial terms between the provinces and the Dominion, to have the British Parliament validate such change by statute, Mr. Craig declared.

Historical authorities were quoted and precedence cited by Mr. Craig in support of his contention that the Dominion's interest in the province's lands were primarily of legislative jurisdiction and did not involve proprietary rights.

To Prevent Grain Mixing

Changes In Wheat Marketing To Be Demanded By Western Members

Ottawa.—Drastic changes in the methods of marketing wheat are being demanded by the members from the prairie provinces and those demands will find their echo in the house this session from both Liberal and Progressive members.

When Robert Gardiner, Progressive leader, in the House the other evening demanded the resignation of the present board of grain commissioners and the establishment of a new board of five to administer the Canada Grain Act, he expressed the views of many in the prairie provinces. Yet the Liberals are asking for more.

Before the present session is far advanced there will be a demand for some means to prevent mixing at the terminal elevators, for changes in the personnel of the board of grain commissioners and for action in the direction indicated in the report of the agriculture committee last session regarding the establishment of protein content as the chief measure of the market value of wheat.

Amend Post Office Act

Bill Has Been Given First Reading In House Of Commons

Ottawa, Ont.—A bill amending the post office act was given first reading in the House of Commons. The measure concerns the ownership of newspapers. It provides that a sworn statement must be furnished to the post office semi annually giving the names and addresses of editors, owners and stockholders and other particulars. Religious publications are not affected and the names of small stockholders may be omitted in all returns, according to a clause in the bill. It is proposed that failure to comply with these provisions may incur a penalty of denying admission of dilatory newspapers to the mails. A further clause provides that paid reading matter must be marked as advertisements. Neglect to comply with this provision under the bill would incur a fine of not less than fifty dollars and not more than five hundred dollars on conviction. The measure was introduced by T. L. Church, Conservative, Toronto northwest.

Had Narrow Escape

Alfreton, Derbyshire, Eng.—Passengers on the night express from London to Glasgow had a narrow escape when the locomotive and baggage coaches were derailed but the coaches kept to the rails. No passengers were injured but the express messenger and firemen were missing and believed to be under the derailed locomotive.

Alaskan Wins Dog Derby

Laconia, N.H.—Leonhard Seppala Alaskan musher, won the New England championship dog sled race by beating out Emil St. Goddard of the Pas, Man., on the last 15 miles of the race and finishing 12 minutes and 17 seconds ahead of St. Goddard for the three-day run.

PASSES EXAMINATION

C. B. Kay, the first Canadian student to pass the final examination of the chartered institute of secretaries, London, England.

Will Make No Change

Thanksgiving Day and Armistice Day To Be Celebrated As Two Distinct Features

Ottawa.—Thanksgiving Day and Armistice Day will continue to be celebrated in Canada as two distinct features of national life, the one in acknowledgement for the bounties of Providence, and the other in homage to the memory of Canada's sons and daughters who gave their lives in the great war. This was affirmed when the House of Commons rejected a resolution introduced by F. W. Gershaw (Liberal-Progressive, Medicine Hat), the purpose of which was to combine both Thanksgiving and Armistice Days into one holiday, on November 11, annually.

Dispute Was Settled

Canadian Workers Re-Instated In Old Positions In Toronto

Ottawa.—In the House of Commons H. B. Adshead, Labor, East Calgary, asked the Minister of Labor whether he had any information to give the members with reference to German immigrants brought into this country to replace Canadian workers in Toronto.

Hon. Peter Heenan replied that he was now able to inform the House that a settlement had been reached whereby the Canadian workmen were re-instated in their old positions at the same wages which they received prior to the dispute.

Rapid Comeback For Britain Predicted

Sir Alfred Cope Sees End Of Period Of Depression

Montreal.—That Great Britain was rapidly coming to the end of the period of depression and that she would come back to the foremost position she once held was predicted by Sir Alfred Cope, under-secretary of state for Ireland from 1919 to 1922.

He is at present managing director of the Amalgamated Collieries of South Wales and is here in the interest of marketing Welsh coal in Canada. He said the coal industry had introduced economies long overdue.

Dry mouth and parched throat are grateful for the refreshing coolness of Wrigley's Spearmint.

Wrigley's whitens teeth, sweetens the mouth, clears the throat and aids digestion, while the act of chewing calms and soothes the nerves.

Consider Tunnel Idea Nothing But Gamble

Should Not Be Started Without Investigation, Is Opinion Of Expert Engineer

London, Eng.—The project for the construction of a tunnel under the English Channel is a gamble.

This is the considered opinion of John Dalrymple-Hays, one of the world's authorities on tunnel engineering, who, in an interview with International News Service, declared the construction of the tunnel should not be decided upon in the first flush of enthusiasm.

Dalrymple-Hays's word must be received with deference. He is an engineer with unrivalled experience in this sort of work. He acts as consulting engineer for the company controlling London's subways, and has had the design and supervision of 506 miles of underground tunnels in London.

"The channel tunnel project is a gamble purely and simply because there is no authority who can say with certainty what may be the thickness of the strata in the middle of the English Channel."

"Again the whole thing is a gamble because it is being done blindfold. As a practical engineer, I say that there is not a particle of real evidence to show the thickness of the strata under the sea. Geologists say they have taken fossils and samples from the sea bed, but to an engineer that is just moonshine. They know nothing of the depth of the chalk."

Trapped In Burning Cabin

Neighbor Unable To Effect Rescue Of Three Prospectors

Sioux Lookout, Ont.—Trapped by flames in their tiny cabin, three prospectors lost their lives at the narrow Woman Lake Portage, according to word reaching here. With them perished their four dogs which were chained to the outside of the building.

The three victims were Tony Tyrell, and men named Gougan and Viogt.

No word is yet available as to where the three came from. Terrified barks of the dogs roused R. F. Dykes, sleeping in a shack some distance. He rushed outside to see the cabin in flames but found it impossible to effect a rescue. He could not even get near enough to release the still living dogs.

Word of the tragedy was brought out by aeroplane.

Stricter Penalty For Violating Drug Act

Amendments Under Consideration To Curb Traffic In Narcotics

Ottawa.—The House of Commons considered in committee of the whole a bill to amend and consolidate the opium and narcotic drug act. The measure provides increased penalties in cases of conviction for selling, giving away, or distributing drugs without a license from the minister of national health. Under the clause inserted a judge may at his discretion, sentence a convicted person to be whipped, in addition to the imposition of fine and imprisonment. A further change provides that persons guilty of infractions of the act shall be liable to payment of costs of prosecution. Other amendments are incorporated, a number of which are for purposes of clarity.

Large Butter Consumers

Canadians Use More Butter Than Any Other Nation

Vancouver, B.C.—Canadians are the largest consumers of butter in the world, declared Dr. J. D. Ruddick, Dominion Dairy Commissioner, in addressing the Western Canada Dairy Convention here on "Dairy Progress in 1923." Their annual per capita consumption, he put down at 27 pounds to which must be added 3 1/2 pounds of cheese. Increased home consumption, according to Dr. Ruddick, had led to a large drop in butter exports and in this connection he referred to the huge consumption of dairy products by the automobile tourists who annually invaded Canada, this trade alone now accounting for between 12,000,000 and 15,000,000 pounds of butter every year.

INTENSE COLD IN EUROPE CAUSES GREAT SUFFERING

London, Eng.—The almost unprecedented siege of cold weather has taken a great toll of life in Europe in the last week, and despatches from almost every country between the North Sea and the Bosphorus brought reports of most critical situations.

Deaths due directly and indirectly to the cold weather have gone well over 10,000 since Monday, and there appeared to be no weakening of the grasp of the most severe winter in the memory of living men.

At Landau, the French sentry on duty with the army of occupation in Germany, was frozen to death in Germany, was frozen to death. Forty other sentries collapsed due to cold and as many as possible were withdrawn from duty. The temperature was 11 below zero at Wiesbaden.

Advices received by Central Radio at Vienna said 10,000 persons had assembled at one point in Budapest to receive coal rations from the Hungarian government.

Several deaths due to cold were reported from Budapest, including a night watchman and his wife, who were frozen. The Hungarian capital was paralyzed by snow, which halted virtually all traffic, the United Press correspondent reported.

England was swept by severe snowstorms and communications were disrupted. The influenza epidemic, combined with cold and cold weather accidents, has caused most of the deaths which have reached a total of well more than 10,000 during the winter, according to reliable statistics from 11 capitals.

The statistics include:

France—2,500 deaths due to influenza and similar diseases.

England and Wales—2,100 deaths due to influenza, cold, shipwrecks.

Spain—1,500 deaths due to shipwrecks, influenza and cold.

Germany—1,400 deaths due to influenza in larger German cities.

Czecho-Slovakia — Influenza epidemic increased death rate in last two months by 55 per cent. in rural areas.

Italy—Scores of deaths attributed to cold, and estimated increase of four per cent. in death rate.

Holland—200 deaths from influenza and shipwrecks.

Austria—150 deaths in Austria due to cold and influenza.

Forestry Association Officers

Ottawa.—Brigadier-General W. P. White, Montreal, was elected president of the Canadian Forestry Association, at the convention here. Directors include Charles Hayden, Calgary; T. S. Dixon, J. D. Robson, and P. A. Wilson, all of Vancouver.

ENDURANCE

Obituary poetry 10 cents per line. Transient advertisements to be paid for when ordered.

Display advertising rates on application at the office.

Changes of advertisements must reach the office not later than noon Tuesday to ensure insertion in the issue of that week.

E. J. C. Gooder, Editor & Manager.

A CONVINCING FACT

Who is the better qualified to judge of the value of advertising, the merchant who never advertised and therefore from the dearth of his experience says "advertising doesn't pay," or the president of the Campbell Soup Company, who states as follows?

"In 1898 the output of the Campbell Soup Company was 500,000 cans for the entire year. Now—18,000,000 cans are produced in one week.

"In 1898 the expense for salesmen was 74 per cent, and for advertising 14 per cent of the selling price. Now—the cost for salesmen is 24 per cent and for advertising less than 3 per cent, making the total selling cost of 5 per cent or 24 per cent less than it cost for salesmen alone in 1898.

"The advertised price for Campbell's soup is twelve cents a can anywhere in the United States. This pays for the cost of materials, the manufacturing charges, the transportation cost, and the profit of jobbers and retailers.

"The cost of advertising on a single can of soup is seventeen one-hundredths of one per cent.

"Advertising, and advertising alone, has made this possible."

ST. VALENTINE'S DAY

It seems a bit surprising, doesn't it—that the custom of sending valentines has nothing to do with St. Valentine himself, who suffered martyrdom nearly eighteen hundred years ago by befriending the persecuted Christians. Its association with the good saint is entirely accidental or without basis, save in one matter of date—his festival being observed on the fourteenth of February.

As is true of many of our festal rites; the custom really had its origin in a pagan practise connected with the worship of Juno, the highest divinity next to Jupiter, and a special protectress of marriage. During the most ancient celebration, the "Lupercalia," it was the custom to place the names of the young women in a box to be drawn out one by one, as chance directed by the young men. Later by the Christian clergy who found it impossible to entirely eliminate this pagan practise, the names of female saints were substituted for those of the Roman maidens, and the saint whose name was drawn became the patron saint of the youth to whose lot it fell for the year.

Perhaps the most pleasing explanation of the custom's origin is that the birds begin seeking their mates on this wonderful day. Cooing doves find places with posies, hearts and cupid's darts in the decoration of our typical lace valentines of today. But you will like to know that this sort of valentine is numbered among very modern times. It was formerly the practise, ye are told, to make really worth-while gifts on St. Valentine's day—a practise which is again coming to the fore.

The three Didsbury rinks attending the Olds bonspiel last week were all successful in bring home a prize. Edward won third in the Askin event and fourth in the grand challenge. Sinclair won the Consolation and Charlie Cook's rink second in the grand challenge, losing to W. C. Gooder of Olds.

LOCAL & GENERAL

Mr. H. O. Tonjum was a business visitor to Calgary on Monday.

Saturday, Feb. 23rd, Bebe Daniels in "Someone to Love," at the Didsbury Opera House.

Mr. and Mrs. J. A. McGhee returned home on Sunday from the Southern States where they have been spending their honeymoon.

Messrs. Ellwood and Howard Evans who are attending Calgary Normal School spent the week end at the home of their parents.

Mr. and Mrs. N. D. Storey of Empress were visitors at the home of Mr. and Mrs. W. H. B. Sharp over the week-end.

Mr. and Mrs. W. G. Liesemer returned last week from the States where they have been holidaying the past two months.

"Show People," featuring Marion Davies, William Haines, Douglas Fairbanks and many other noted screen favorites at the movies, Wednesday, Feb. 27th.

Miss Evelyn Warren who has been employed at J. V. Berscht's left last week for Calgary where she will go into training for nurse at the Holy Cross Hospital.

Messrs Cecil Studer and J. V. Berscht attended the annual convention of the Retail Merchants Association held in Calgary the forepart of this week.

A Valentine party was given at the Melvin School on Wednesday evening, Feb. 13th by the Women's Institute to bid farewell to Mr. and Mrs. Alex. Hendry who are leaving this district to take up residence in Vancouver.

The I.O.D.E. held their annual Valentine dance Friday evening last in the local Opera House. Owing to the cold weather and the blocked roads the crowd was not as large as expected, but those who were present had the time of their lives.

RUGBY

The February meeting of the Rugby W.L. was held at the home of Mrs. J. P. Luft with an attendance of 14 members and three visitors who also joined our ranks. After the business of the day was disposed of, our Immigration Convener, Mrs. O. O. Swingle, took the chair. She gave us a splendid paper on Immigration which was followed by a lively discussion. It was decided to send in a resolution to the District convention at Drumheller, regarding the selection of immigrants. Then a very unique contest was held between the members and was enjoyed by all. The meeting closed with the singing of the National Anthem after which lunch was served. We hope everyone is planning to attend the concert at Melvin on Feb. 22nd. Keep in mind the rummage sale and program at the Rugby School on March 1st.

ITEMS OF INTEREST

Alberta dairying interests will be represented during the coming year on the board of the National Dairy Council of Canada by the following men who were chosen at the recent convention of the council held in Vancouver: E. T. Love, Edmonton; J. W. Carlyle, Calgary; Norman E. Clarke, Didsbury; W. W. Prevey, Edmonton, and J. R. Love, Edmonton.

Dr. H. M. Tory who occupied the position of president of the University of Alberta from its organization until last year, has recently been appointed president of the League of Nations Society of Canada, succeeding Sir George Foster.

By a majority of 235 votes, or 12 to 1, By-Law No. 324, authorizing the sale of the power, electric light and water franchise to the Calgary Power Company, Limited, was passed on Monday, Feb. 11th, the biggest vote ever recorded in the town of Camrose.—Camrose Canadian.

She called her sweetheart Pilgrim because every time he called he made more progress.

Meet Me At Ranton's Ltd. - "The Store With a Conscience"**EYES AND HEALTH**

"And he will never see the flowers, nor the young lambs jumping in the fields, nor the birds when they sing, and he can't work on the farm! Oh, my boy! my boy!"

A blind baby—what a tragedy in the lives of parents when the dread verdict is pronounced! To the child who lives in perpetual night, the realization of all he has lost is happily withheld in its entirety. He has never seen.

To the individual who has once seen and enjoyed the wonders and beauties of this world, blindness is a deprivation of half the incentive to live.

"A million dollars to anyone who will restore my sight." Once said a prominent business man who had become blind. But it was too late. No one could restore the vision that was lost. This shows how valuable to us is our eyesight and how careful we should be to keep our eyes in good condition.

The eyes are connected with other parts of the body. The cause of many eye troubles is not in the eye itself, but comes from other diseases. On the other hand, poor eyesight may cause illnesses in other parts of the body. Often when the eye trouble is corrected, the health improves.

Frequently if a child is backward in school, or if he does not stand or sit straight, it may be because his eyes are causing the trouble. Children as well as adults may have bad headaches due to eye-strain. An eye specialist should be seen. If eye

trouble is found and proper glasses worn, the headaches disappear and the general health improves.

Keeping the sight is a most important thing. All children before going to school, should have a complete physical examination, special

care being given to testing of the eyes. Glasses should be provided if necessary, so that the child starts school free of a serious handicap.

Further information may be had from the Canadian Red Cross Society, 407 Civic Block, Edmonton, Alta.

Popularity

THE play that is pleasing thousands is the play to see. The look everybody's talking about is the book to read. People whom others like you want to meet.

Popularity, after all, is the public's stamp of approval. Plays and books and people become popular because we like them.

A new soap or a vacuum cleaner or a dress material is not so much popular because it's advertised as it is advertised because it's popular. That is, it must meet your every requirement, else it would be a waste of money to advertise it.

The products you find advertised in these pages are popular products. They have been weighed and found worthy.

* * * *

Read the advertising here in your paper—it will introduce you to products that are pleasing thousands.

For 9 Years Gas Ruined Her Sleep

"Due to stomach gas I was restless and nervous for 9 years. Adlerika has helped me so that now I eat and sleep good."—Mrs. E. Touchstone.

Just ONE spoonful Adlerika relieves gas and that bloated feeling so that you can eat and sleep well. Acts on BOTH upper and lower bowel and removes old waste matter you never thought was there. No matter what you have tried for your stomach and bowels, Adlerika will surprise you. H. W. Chambers, Druggist

Olds - Alberta

Here and There

(233)
Large cargoes of wheat are being shipped to Japan and the Orient through Vancouver these days. It seems like sending coal to Newcastle to send four to The Floury Kingdom.

Some foundation for the old sickman "woolly" was found in the report that Alberta's wool output for 1928 amounted to 3,053,181 pounds. Altogether the Dominion produced over eighteen and a half million pounds.

Steel is replacing wood in freight service on the Canadian Pacific Railway as 7,600 box cars now on order for the company will be of steel construction. They will have a capacity of about 2,000 bushels of grain and a load of 12,000 pounds.

Fur-farming is developing many branches, one of the most recent being the organization in Manitoba of the Manitoba Mink Breeders Association. The body plans to study mink breeding conditions and to investigate all phases of the industry.

In a recent speech at Kitchener, Ontario, E. W. Beatty, chairman and president of the Canadian Pacific pointed out that the average freight rate per ton per mile in Canada is about 54 per cent lower than in the U.S. and that the average of Canadian grain rates is 40 per cent lower.

The Trans-Canada will cross the continent in an hour and a half less time eastbound, and an hour less westbound than it did last year. This does not mean that Canada has got any smaller, but that the Canadian Pacific Railway is running the famous flyer on an improved schedule.

Penny postage, inaugurated at Christmas, is working well and bringing about a notable increase in letter mail from Canada to the British Isles, according to federal postal officials. It is expected that the increase in the course of a year would be such as to offset the \$200,000 estimated reduction in revenue by the penny rate.

In Manitoba, there is one tractor for every 4.6 farms; in Saskatchewan, one for every 4.7 farms; and in Alberta, one for every 7.5 farms. If all the tractors were hitched together, how long could it take a garage mechanic to reach the moon.

Church Announcements

United Church

Rev. A. E. Hayes, B.A., Minister.

Sunday, February 24

11 a.m. Sunday School, Didsbury.
7:30 p.m. New Knox Church.
2:30 p.m. Westcott

Beginning a series of Lenten sermons, Easter is about a month away. The minister asks all who possibly can to attend regularly the next four Sundays.

Men's Bible Class in basement of New Church 11 a.m. Sunday.

Annual meeting called on Monday, Feb. 25th, 8 p.m. Social hour at close.

Presbytery is meeting in Didsbury on Wednesday and Thursday, Feb. 27 and 28. Public meeting Wednesday 8 p.m. Dr. Powell will speak.

Evangelical Notes

The monthly union meeting under auspices of the Ex. League of Christian Endeavor is due again next Sunday, and this time the program will extend over the entire week end, i.e., Friday, Saturday and Sunday, beginning at 2:30 on Friday. Four or five neighboring ministers in the Conference are expected to be present to take part in the program.

The Fri. and Sat. evening services will be held at Westcott, 9 p.m., weather permitting. On Friday afternoon, Saturday afternoon and all day Sunday the services will be held in town.

A special feature in the Sunday morning service will be the dedication of the new piano recently purchased by the Young People's Society. Holy Communion will also be observed on Sunday morning. In the evening service several new members in a y are received into church membership.

The addresses to be given by the visiting ministers will all have to do with some different phase of Christian Endeavor and S.B. work.

The public is invited to all these services next Friday, Saturday and Sunday, morning, afternoon and evening.

Lutheran Church

Didsbury 11 a.m. German.
Westcott 8 p.m. English.

Morning subject: The blessedness of the love of God's Word.
Evening subject: Three bitter drops in the Cup of the Suffering of the Lord.

The Weather League Winter Conference held in Calgary the previous week was said to have been "the best ever yet."

Since it could not send foodstuffs, the Lutheran Ladies Aid of Westcott decided to send \$5.00 to our institution at Edmonton. Contributions such as these repeatedly made throughout the District explain why board and room costs the students the nominal price of but \$50 per year.

Church of England

First Sunday in the month—Afternoon at 3:30 p.m.
Third Sunday in month—Morning at 11:00 a.m.

WESTCOTT

The program and Valentine social at Westcott school Feb. 15th was well attended, the proceeds amounted to \$19.75. The next meeting of the Westcott Musical and Literary Society will be held on March 8th.

Misses Rena Tuggle and Doris Murphy were visitors to Calgary Friday last.

We are glad to hear Mrs. Wilson is recuperating after her recent operation.

Miss Mildred Levagood who is attending Calgary Normal spent the week-end with her parents.

Coming Events

All are invited to a public meeting in the interests of the Alberta Wheat Pool at Mountain View Community Hall on Monday, Feb. 25th at 8 p.m. Messrs. W. McLeod and W. Pettinger (Field Service Dept.) will address the meeting. Members this is your lastest chance. 100 p

Dance at Springdale School, Friday, March 1st. McDonald's Orchestra.

A Whist Drive and Dance will be held under the auspices of the Eastern Star on Monday, March 4th at 8:30 p.m. in the Oldfollies' Hall. Proceeds will be devoted to the O. S. S. Orphan Home fund. Balducci's Orchestra. Admission 75c. 100 p

Victoria to Have an Old English Yuletide Festival

(185)

When old Thomas Tusser, born fifty years before Shakespeare, wrote "At Christmas, play and make good cheer."

For Christmas comes but once a year.

He made certain the success of "The Farmer's Daily Diet," grandparent of "Four Richard's Almanac" filled with other agricultural lore and sober maxims of thrift and honesty.

Englishmen have needed no urging to follow Tusser's welcome advice, and have celebrated joyously the "Twelve Days of Christmas," except during the Reformation and under the regime of the Ironclad when such festivities were frowned upon.

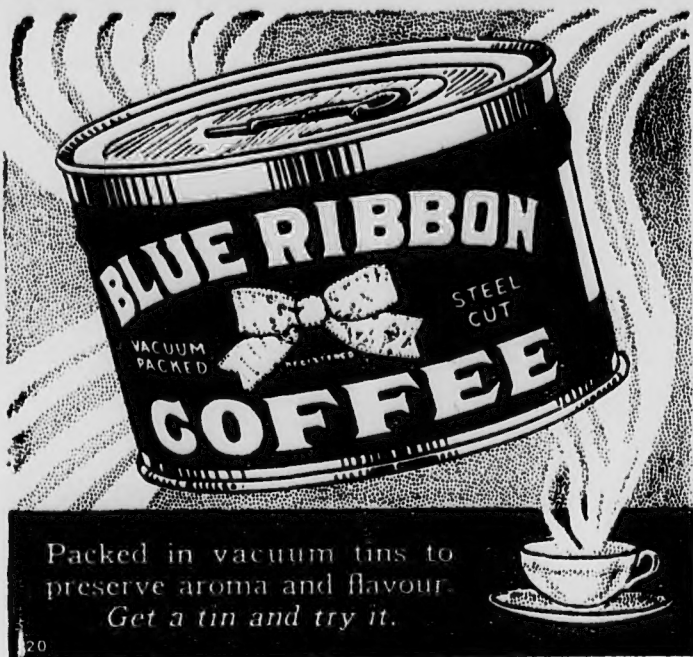

But it remained for Dickens and Washington Irving in America to revive with their magic pens the old Yuletide spirit.

We on this continent have long fashioned our Christmas celebra-

tions on the model of the old English Christmas, which we find memorably described in the writings of Dickens and Irving. During the coming Christmas the festivities hallowed by six centuries of English tradition will come alive as never before, and for the setting they will have the city of Victoria, B.C., which has been called "a corner of England on the Pacific coast." Here, in the Empress Hotel, an Old English Yuletide Festival is to open on December 23rd, the boldest and gay and most magnificent in English song all flourish in Victoria, and will furnish the traditional setting for the carolling, the wassailing, the mumming, the Twelfth Night merrymaking, the Yule log, the mince pie, and the other delights that warmed Geoffrey Chaucer's heart.

Harold Eastace Key, director of Canada's major music festivals, is arranging the musical program for the night concerts at the

Empress Hotel. He has in hand a representation of "Wassail's Christmas Party" as immortalized by Dickens in the Redstockings. This is to have a running commentary of Yuletide music to set off the charming fables of its lovely legendary characters. Dr. Henry Willan of the Toronto Conservatory of Music has composed for the occasion incidental music to "The Twelfth Night," a Christmas play selected from a group of medieval pageants which used to be acted by the trade guilds of the North. English, dealing with the master theme of the shepherds and the Babe of Bethlehem. The first performance of these plays was in 1128, exactly six hundred years ago.

Packed in vacuum tins to preserve aroma and flavour. Get a tin and try it.

WORLD HAPPENINGS BRIEFLY TOLD

A great swarm of locusts, which were devastating Palestine, were driven into the eastern deserts by the high winds and the crops are saved.

Hugh Lawley, an Oxford man, has patented a radio set, of four tubes, that he has built into a miniature grandfather's clock.

Lilly Langtry, famous actress and long known as the "Jersey Lilly," died recently at Monte Carlo from an attack of bronchitis.

The Grecian chamber of deputies has ratified the Kellogg anti-war treaty and the non-aggression pact with Italy.

Canadian breeders will exhibit in the neighborhood of 1,000 birds at the World's Poultry Congress to be held at Crystal Palace, London, in July, 1930.

Russia, Poland, Rumania, Esthonia, and Latvia have signed a protocol by which the terms of the Kellogg-Briand renunciation of war act are placed into effect immediately as between themselves.

It is authoritatively stated that the two British cruisers upon which construction started a few weeks ago will be 10,000 tons each, the maximum displacement under the Washington treaty.

The Associated Press learns on good authority that Dr. Hjalmar Schacht, president of the German Reichsbank, told the reparations experts that Germany could no longer pay at the present rate under the Dawes plan.

Cutting Corns With Razor Leads To Lock-Jaw

Don't cut corns with an old razor blade. Infection, followed often by death may result from paring corns with an infected razor. Quick safe relief comes from using PUTNAM'S CORN EXTRACTOR. If afflicted with corns, callouses or sore foot-lumps, use "PUTNAM'S"—it's reliable, and sure to shrivel up the corns so they drop right off. No pain, no soreness, but quick relief from sore corns comes to all who use PUTNAM'S PAINLESS CORN EXTRACTOR. 25c. at all dealers.

In the building of a railway line in French Equatorial Africa, 17,000 negro laborers have died from disease, privation and exposure.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

Elevator Merger Announced

The Fort William "Times-Journal" announces the consummation of a merger under which the Western Grain Company, Limited, has been formed to take over the assets and undertakings of six grain and elevator concerns that have been in operation for periods ranging from 19 to 27 years. The companies include the Western Elevator Company, State Elevator Company, Central Grain Company, Spencer Grain Company, Beaver Grain Company and the Western Terminal Elevator Company.

KEEP YOUR BABY HAPPY AND WELL

Every mother wishes her child or children to be well and happy; to be bright-eyed, rosy-cheeked boys and girls. No mother, though, can expect her children to escape all the ills of babyhood and childhood, but she can do much to help them fight the battle for health.

All prudent mothers constantly keep at hand the means of aiding their little ones when sickness comes suddenly—as it generally does in the case of children. In every home where there are infants and young children Baby's Own Tablets should be found. Read what Mrs. Mary Hill, Centre Dumfries, Ont., says concerning these Tablets:—"I am the mother of six children and would not be without Baby's Own Tablets. They are a wonderful medicine for little ones."

Baby's Own Tablets are a mild but thorough laxative which regulate the bowels and sweeten the stomach and thus break up colds and simple fever, banish constipation and indigestion and allay the irritation accompanying the cutting of teeth. They are absolutely safe and are pleasant to take. The Tablets are sold by all medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Whatever He Thought

This isn't a new one, but it is worth re-telling. A little girl ran into her home one afternoon and said to her maiden aunt, a Christian Scientist: "Auntie, you know that old man on the corner who was ill?"

"You mean he thought he was ill?" corrected the aunt.

"Well, now he thinks he's dead," said the little girl.

Wine-making is the principal industry of Portugal.

Books are the ever burning lamps of accumulated wisdom.—Curtis.

GRIDDLE CAKES

Who doesn't like griddle cakes? From father to the youngest member of the family, every one clamors for more—when they are tasty! Here is a tested recipe:

- 1 cupful Borden's St. Charles Milk.
- 1 cupful water.
- 2 tablespoonfuls melted butter.
- 1 egg, well beaten.
- 3 cupfuls white flour.
- 1 teaspoonful salt.
- 4 teaspoonfuls baking powder.
- 2 tablespoonfuls sugar.

Combine the milk and water, add the shortening, sugar, and the egg, and beat in the dry ingredients which have been sifted together. Beat thoroughly and fry as usual on a slightly oiled griddle, or on an un-oiled aluminum or soapstone griddle. If very thin cakes are desired, add two more tablespoonfuls of St. Charles milk and water. For further interesting recipes write for the Borden Cook Books, addressing The Borden Co., Ltd., Dept. WL, 140 St. Paul St., Montreal.

PARENTS HAPPY WHEN BABY SLEEPS SOUNDLY

Here's a way to soothe crying, wakeful babies to sleep quickly and easily. It's the way doctors endorse, and millions of mothers have proved is safe and harmless. A few drops of purely vegetable, pleasant-tasting Fletcher's Castoria, has the most fretful, restless baby or child asleep in a few minutes! And for colic, constipation, colds and upset spells, there's nothing like Castoria. The Chas. H. Fletcher signature is the mark of genuine Castoria. Avoid imitations and be safe.

Old-Time Athletics

An oldtimer was complaining that the schools devote too much time to athletics nowadays. "Well," someone asked, "what did you old-timers do when you went to school?" "We had fights," replied the old resister.

Persistent Asthma. A most distressing characteristic of this debilitating disease, is the persistence with which recurring attacks come to sap away strength and leave the sufferer in a state of almost continual exhaustion. No wiser precaution can be taken than that of keeping at hand a supply of Dr. J. D. Kellogg's Asthma Remedy, famous as the most potent remedy for eradicating the disease from the tender air passages.

Canada Early Prize Winner

That Canada early took foremost place in fish culture is indicated by the fact that in 1883 at the Great International Fisheries Exhibition in London, she carried off the highest award, namely, the gold medal and diploma for the best and most complete fish-breeding establishment in the Exhibition.

Children suffering from worms soon show the symptoms, and any mother can detect the presence of these parasites by the writhings and fretting of the child. Until expelled and the system cleared of them, the child cannot regain its health. Miller's Worm Powders are prompt and efficient, not only for the eradication of worms, but also as a toner up for children that are run down in consequence.

The Germans have built a car that will run one mile on half an ounce of gas. Those Christmas cigarette lighters will come in handy yet.

All mothers can put away anxiety regarding their suffering children when they have Mother Graves' Worm Extirminator to give relief. Its effects are sure and lasting.

"Daddy," cried the doctor's small son, "I want a drink."

"Sorry," murmured daddy, sleepily, "but I'm all out of prescription blanks."

Stop the Cough.—Coughing is caused by irritation in the respiratory passage and is the effort to dislodge obstructions that come from inflammation of the mucous membrane. Treatment with Dr. Thomas' Electric Oil will allay the inflammation and in consequence the cough will usually stop. Try it and you will be satisfied.

"So Barker is doing a cash business and making lots of money."

"Yes, he's feathering his nest with down payments, so to speak."

Minard's Liniment for Coughs and Colds.

SUNDAY SCHOOL LESSON

FEBRUARY 24

CHRISTIAN GROWTH

Golden Text: "But grow in the grace and knowledge of our Lord and Saviour Jesus Christ."—2 Peter 3. 18a.

Lesson: John 1.40-42; Matthew 16. 15-18; John 21. 15-19; Luke 2.40. 52; Ephesians 4.11-18; Philippians 1.6, 9-11; 3.12-16; Colossians 1.9-11; Hebrews 6.1-3.

Devotional Reading: John 15.1-8.

Explanations and Comments

Becoming a Follower Of Jesus. John 1.40-42.—After a day in the company of Jesus (read verses 35-39), Andrew sought his brother and told him that he and John had found the Messiah, Messiah (Hebrew, and Christ (Greek), mean "The Anointed One." Hebrew kings were anointed with oil when given their office, and the Spiritual King was thought of as The Anointed, The Chosen One of God, until The Anointed, the Christ, became the name by which he was designated. Then Andrew brought Peter to Jesus.

The nearer another is to us, the greater our responsibility for him. Our own brothers and sisters know us better than do those outside the family circle; they know our faults and failings, and therefore we shrink from talking to them about our spiritual experiences. It may require courage to do this, but our Christianity is shallow if we cannot do it.

As He looked upon Andrew's brother, Jesus said, "Thou art Simon the son of John; thou shalt be called Cephas." Cephas, the Aramic name, and Petros, Peter, the Greek name, mean "a stone," a detached piece of rock. Jesus knew Peter was too impulsive to be reliable; but he also knew that he would become the rock on which he would one day build His church (Matthew 16.13-19). "In a gallery in Europe there hang side by side Rembrandt's first picture, a simple sketch, imperfect and faulty, and his great masterpiece which all men admire. And so in the two names, Simon and Peter, we have first a rude fisherman, the man as he was before Jesus began his work on him; and, second, the man as he became after the friendship of Jesus and the teaching of Jesus and the discipline of life had wrought the transformation in him."—J. R. Miller.

Minard's Liniment Co., Ltd., Yarmouth, N.S.

Friction between two surfaces depends upon the pressure applied and not on the amount of surface contact. Theoretically, a large bearing has no more friction than a small one at equal pressure.

Its Quality Sells It.—The fact that so many thousands of intelligent people continue to use Dr. Thomas' Electric Oil speaks volumes for its healing efficiency. Ever since it was first introduced it has grown steadily in public favor, owing entirely to its manifold usefulness in relieving and healing sickness. As a specific for cuts, burns, scalds, and various inflammatory pains its record is beyond reproach.

Automobile license plates in Japan have Arabic numerals with a Japanese character in front, giving the name of the district whence came the machine.

In Daily Use over all the world

THOUSANDS of women have come to regard Cuticura as the true natural aid to a lovely skin and attractive hands and hair. Regular daily use of Cuticura Soap, assisted by Cuticura Ointment when required, purifies and beautifies the skin, cleanses the scalp and keeps the hair live and glossy.

Soap 25c. Ointment 25c. and 50c. Talcum 25c. Sample each free. Address Canadian Depot: J. T. Watt Company, Limited, Montreal. Cuticura Shaving Stick 25c.

Keep Foods Deliciously Fresh

Keep your foods—cakes, bread, pies, cut meats, etc.—under a covering of Para-Sani Heavy Waxed Paper. You'll be amazed at the length of time they'll stay fresh...delicious! Para-Sani keeps them from staling. Get Para-Sani in the handy, sanitary knife-edged carton. For less exacting uses ask for Appleford's "Centre Pull" Packs in sheet form.

CHAPTER XIV.—Continued.

Hand stripped to the waist. Connie's eyes rested on the mighty frame of this huge blond; the bunched and rippling muscles, the great chest covered with a mat of thick hair, and the enormous limbs. Her glance then turned and roved to the man who was to fight for her honor. Donald's eyes were like burning coals. His face had regained its color, but was contorted with a passion that made him seem unnatural. Yet he appeared a mere stripling in comparison to his burly antagonist.

For a moment Connie became a primitive woman. She felt as though she could rend and tear. Her eyes darted blue lightnings of wrath toward the man who had insulted her, and her small hands clinched in impotent fury. Her nails cut into her palms as she exercised every ounce of self-control to keep from screaming aloud. Donald was fighting for her. She caught her breath in a quick stab. Her heart was beating with alternate throbs of joy and fear. A sudden fit of trembling seized her, and her head felt light and giddy.

Hand's reputation as a rough and tumble fighter was well known throughout the province. It was his proud boast that he never had been whipped. He advanced now, a sinister leer on his face. Andy ran to Donald's side.

"Box 'im, Donnie," he whispered. "Don't let 'im get 'old on you."

"You goin' to vip me? De dude goin' to vip me? Ach!" scoffed Hand in guttural accents.

He came slowly forward with arms spread wide, his thick fingers working convulsively. Donald leaned slightly forward and waited. As he neared him, Hand tore in sure of himself in the rough and tumble. Donald side-stepped the big man's first rush and shot his left to his face. He was not properly set for the blow, but it stung Hand to madness.

"Ach!" he grunted, "stand and fight you d— coward!"

He came on, his arms swinging wildly. Leaping aside, Donald's heel struck a stump, and before he could regain his footing the giant's arms were around him in a bone-crushing grasp. His hands were clasped at Donald's waist, and the big head

was pressed suffocatingly against his throat. Donald was forced slowly backward to strike the ground with a thud, the big man on top.

"Now I got you!" panted Hand as he released his hold on Donald's waist and aimed a blow at his face. With a quick movement the under man turned face down. Hand struck him viciously as he lay prostrate under him.

Connie's eyes were wide with horror, and a muffled scream escaped her lips as the blow fell.

With a quick, convulsive movement of his lithe body Donald threw Hand from his back and sprang to his feet. Whirling quickly as the foreigner came toward him, he sent in a volley of blows to his opponent's face. Hand staggered, but did not fall. His lips were cut and bleeding; his nose was broken; and he spat out several broken teeth. Any one of the blows landed was sufficient to send an ordinary man down for the count, but still the gargantuan giant came on.

In and out Donald flashed, his arms moving like steel pistons. Hand could not keep away from the punishing left hand of his lighter opponent. Men not trained in the science of boxing have no punishing power in their left hand, but depend solely on their right. Such was the case with Hand. His style did not vary for a moment. With head lowered between his powerful shoulders, he would bore in, swinging wildly in the hope of landing a lucky punch, or striving to get a hold on his adversary. Donald's hand kept beating a tattoo on his rock-like jaw, but still Hand came forward, slowly and relentlessly as a steam-roller.

Crowding Donald back to the line of tense spectators, Hand rushed him into the scattering crowd and seized him in a rib-cracking embrace. Donald broke the hold, but not before the brute had butted him over the eye. With the blow Donald's senses reeled and the blood gushed from a wide gash on his brow. A blow from the foreigner's big fist then caught him over the heart and sent him staggering to his knees. With a curse the big man came after him. Andy shouted hysterical words of advice.

Donald came slowly to his feet and mechanically side-stepped as Hand came stumbling toward him. Donald evaded him until his head cleared, and then summoned his remaining strength into one mighty blow that landed flush on his opponent's midriff. The blond beast came to his knees with a dull grunt.

"Go after him!" yelled excited voices from the crowd.

Donald stepped forward with fist drawn back to strike the kneeling man, but his arm fell to his side and he shook his head. "Get up!" he commanded hoarsely.

Even the strikers gasped their appreciation of this honorable act. A murmur of applause came from both sides. The foreigner shook his shaggy blond head and came uncertainly to his feet and the sanguinary battle went on. Both men were tired. Hand's breath was coming in short-choking gasps from his tortured lungs, and his face was one smear of blood. Donald's left eye was closed; his lips were split, and the gash over his eye had covered his body with blood. His arms were tired from pounding the iron jaw of his adversary. The big logger's strength was waning; the pounding administered by Donald was beginning to tell. But Donald was too weak to avoid his rushes. In a clinch Hand again butted him with his head.

Blackie, his eyes blazing, leaped forward with a peavy handle in his hand. "You fight fair, d— you, or I'll brain you!" he shouted. One of the strikers attempted to wrest the peavy handle from his hands. Blackie felled him with a blow of his fist. It looked for one tense moment

as if there would be a general melee. There came sudden mutterings from the crowd of strikers.

"Back!" John Hiller's voice rang out sharp and clear. "I'll kill the first man that interferes!" The eyes shining over the long-barrelled Colt held a dangerous glint. The men who had moved to the centre backed away hurriedly.

Back and forth the combatants struggled, neither gaining any decided advantage, each trying to land a blow that would end the battle. Reeling, gasping, striking, falling to their knees from sheer weakness, the men fought on under a burning noontide sun.

No knight of old ever fought more nobly for a fair lady's honour than did Donald McLean that day by the lake-shore. His undershirt was torn to tatters, showing his white skin blotched with welts and bruises. He was losing his sense of distance. Swinging wildly with his left, his wrist struck Hand's adamant jaw and the onlookers saw his face writhe in pain as the arm fell helplessly to his side.

"E's broken 'is 'and," groaned Andy.

"Oh, stop it, Andy, please stop it!" sobbed Connie, her arms held out in entreaty.

Donald's face turned a sickly grey, and as the well-nigh sightless foreigner staggered weakly toward him, he with a strength born of agony whipped his right to his opponent's sagging jaw. The big man faltered, sank slowly to hands and knees, then stretched at full length, his face pressing the soil, quivered and lay still. No sound came from the crowd. The thing had been too stupendous for immediate shouting or applause. Donald stood for an instant swaying uncertainly, then turned to stumble toward his cabin.

Blackie sprang to the top of a stump and swung his hat in the air. "Three cheers for our boss!" he yelled wildly.

A roaring cheer came from the crowd with a right good will.

"Boys, let's go back to work!" shouted Blackie.

"We're with you, Blackie!" they answered.

Gillis reached Donald's side as he tottered into the cabin and caught him in his arms as he collapsed into unconsciousness. The big man picked him up tenderly and placed him on the bed.

"Get some 'ot water and towels and telephone for Dr. Paul," commanded Andy tersely.

As Gillis left to fill Andy's commission, Connie fell on her knees by the bedside and wept with wild and passionate violence. "Oh, Donald!

CHILDREN'S
COLDSare doubly dangerous
after Flu

Physicians advise that the chief danger in this epidemic is AFTER influenza. Then, more than ever, colds attacking a child's weakened system may lead to bronchitis, pneumonia, sinus trouble, abscess of the ear, mastoiditis, or even the dread meningitis.

Check Colds Without "Dosing"

A peculiarity of influenza is that its toxins leave the digestive system upset. Too much "dosing" further disturbs the digestion and lessens the appetite, just when the child needs nourishment more than ever. Internal medication should therefore be avoided, except on the advice of a physician.

As Vicks VapoRub is applied externally, it can be used freely at the first sign of a cold with no fear of upsetting even the most delicate stomach. Just rub it on the throat and chest at bedtime.

Vicks Acts 2 Ways at Once

(1) Its medicated vapors, released by the body-heat, are inhaled direct to the inflamed air-passages, loosening the phlegm and easing the difficult breathing.

(2) At the same time, Vicks acts through the skin like a poultice, "drawing out" tightness and soreness, and thus helping the vapors to break up the congestion.

Of course, Vicks 2-way action is just as effective for adults' cold-troubles as it is for those of children.

VICKS
VAPORUB

For Colds of All the Family

Donald!" she sobbed, "you fought for me. I love you! I love you! Oh Andy," turning her streaming eyes to the little man, "he won't die, will he? Tell me he won't die!" Her trembling fingers were smoothing Donald's dark hair, and she kissed his battered face tenderly, all the while calling his name hysterically.

With tears in his eyes and a heart full of sympathy, little Andy looked down on the recumbent form of his unconscious friend. "E's all right Cnnie. 'E'll be all right in a few days," he answered her in a choking voice.

(To Be Continued.)

To believe with certainty we must begin by doubting.—Stanislaus.

No man expects a great deal from marriage. He is quite satisfied if his wife is a good cook, a good valet, an attentive audience, and a patient nurse.

WINDOLITE

The Improved
Glass Substitute

MADE IN ENGLAND

COMES WITH A MESSAGE OF HEALTH

WINDOLITE stands for 100 per cent. sunlight. It makes light but strong windows for cattle sheds, dairy stables, poultry houses, brooders and all out buildings. It is economical, unbreakable, flexible and is easy to cut and fit. It is now being successfully used for sunrooms, verandahs, schools, factories, hospitals, sanitariums, hot beds, plant coverings and greenhouses. It keeps out cold—will not crack or chip—cuts with an ordinary pair of scissors and is easy to fit. WINDOLITE is supplied in rolls any length but in one width of 36 inches only. A square yard of WINDOLITE weighs about 14 ozs., while a square yard of glass of ordinary thickness, weighs about 135 to 140 ozs. The improved WINDOLITE requires no varnish. WINDOLITE is made in England.

Price \$1.50 Per Square Yard, f.o.b., Toronto.

C.N.R. TO BUILD MORE ALBERTA BRANCH LINES

Of the 695 miles of branch con-
struction which is proposed by the
Canadian National Railways dur-
ing the next three years 156 miles
are in Alberta. The longest pro-
ject in the province is 82 miles of
new construction to run south-eas-
terly from Alliance to near Dobson
on the Calgary-Saskatoon line of
the C.N.R. In addition to serving
a large area of good agricultural
land this branch will considerably
shorten the haul for grain and other
shipments to Edmonton. From
this new line a branch 25 miles in
length will be built in a north-
easterly direction from Bulwark.
The building program in Alberta
also includes the extension of the
Loverna line from its present ter-
minus at Hemaruka to Scapa on
the Hanna-Warden line, a distance
of 41 miles following the route ori-
ginally projected by the Grand
Trunk Pacific.

Here and There

(508)
Apple shipments over the Domi-
ton Atlantic Railway in Nova Scotia
up to and including December 6th
totalled 2,166 carloads—an increase
of 372 cars over the same period of
last year.

A motor road that will shorten
the present Banff-Calgary highway
and take in some of the finest
scenery in the Rockies is now in
course of construction and should
be in operation next year.

The Port of Montreal has again
scored a new record with grain
deliveries at 210,500,000 bushels for
the season of navigation. Last
year's deliveries ran to 195,247,914
bushels and those of 1926 to 134-
591,240 bushels.

Many visitors from western
cities in Canada and the United
States are expected at the Banff
Winter Carnival this season, said
W. A. Brewster, president of the
winter sports organization at
Banff, judging from the number of
inquiries that have been received.
Skiing, skating, and other kindred
winter sports will be in full swing,
he said, and it now appears there
will be many competitors from
outside points in the various
events.

The present season of naviga-
tion is characterized as "a phe-
nomenal year as far as general
cargo is concerned" by the chief of
the wharfe department of the
Harbor Commission of Montreal,
commenting on business outside of
grain. "We shall show a revenue
increase that will be astounding
when the annual report comes to
be made up," he said.

Hockey, Friday 22nd Olds at
Didsbury.

You can tell a girl she is becoming;
but you cannot always tell her what.

al councillor, Mr. Percy Saunders,
was re-elected by acclamation at
the nominations in Olds on Satur-
day last.
